BALZAC
PARIS

THE TIMELESS ELEGANCE

of a true grand hotel

Just off the Champs Elysées, the iconic Balzac has been reinvented in the grand tradition of French-style hotels. Behind the majestic doors, you'll find a warm, intimate atmosphere. An immediate feeling of being in Paris and nowhere else, in the hushed lobby as well as in the 58 rooms and suites, some with views of the Eiffel Tower and open-air terraces. A confidential Japanese spa IKOï, Pierre Gagnaire's adjoining gourmet restaurant, a mysterious hotel bar... A highly desirable new destination with a decoration imagined by Festen Architectes, freely inspired by the sober elegance of the 30s and 40s, revisited by a very personal creative modernity. In every detail, the search for absolute comfort was the first requirement, a matter of course. Bienvenue !
